

Technical Tips

To ensure the best possible experience during your online lesson, please follow these simple recommendations:

Internet Connection: Make sure you have a stable internet connection to ensure smooth, uninterrupted communication.

Lighting: Position yourself with the light facing you and avoid having bright light sources behind you. This will ensure that both your face and your hands are clearly visible.

Camera Position: Make sure both hands and your entire guitar are visible in the camera frame. A good camera angle will help your instructor follow your playing more effectively.

By following these recommendations, you'll enjoy a smoother and more productive online lesson.
